

Transport connections to the Czech Republic

International Airports in Czech Republic: Prague, Ostrava, Brno

The best air connection is to the capital city of Prague.

It is also possible to fly to Vienna.

All train and bus connections can be searched and tickets can be bought online here: <https://idos.idnes.cz/en/vlakyautobusymhdvse/spojeni/>

I highly recommend that you also order seats with your ticket. In the summer months, the most reconstruction of the train tracks is done, please expect some possible delays.
