Song „Tomato-Salad“

Target group: 1st and 2nd grade elementary-school, 6 to 7 years old children.

The children of my 2nd year class have been used to a hand puppet called "Mimi-Mouse" since they started school and they "insist" on its regular appearance even now. Therefore I used it in the 1st video to give them some feeling of closeness to the normal classroom situation.

Mimi mouse makes a lot of "jokes" also in regular lessons . Since it is actually used to help the children learning to read and write, the poor thing sometimes simply can not calculate and the children have to help it...

The children also play with this puppet and want to have it with them in turn and have a dialogue with it or feed it with cheese from their snack. This means a lot to them. I have now extended this method to the well-known "Kasperl" figures.

<https://youtu.be/UGTvwOWu3Kg>

I produced this Video again for my 2nd -grade-class to cheer them up, because they can't go to school before June.

I uploaded the videos in YouTube (not listed) and sent a link (E-Mail) to the parents.

The trick with this lousy tomatensalad is to speak the 5 syllable word in 6/8 with changing accents.

While watching the video, children can join in pronouncing the syllables, learning the song and practicing the beat. (see the song below)

Christine Preissinger

I am a teacher of a 2nd primary school class and also teach music in other classes. Every year we organise a large stage performance (musicensemble, dance, choir) around themes related to Carl Orff

TOMATENSALAT

TO - MA - TEN - SA - LAT, TO - MA - TEN - SA - LAT.
MA - TEN - SAL - LAT...

3

TO - MA - TEN - SA - LAT, TO - MA -

5

TEN - SA - LAT, TO - MA - TEN - SA - LAT. TO - MA - TEN - SA -

7

LAT, TO - MA - TEN - SA - LAT. TO
